Attention: Mr. D. Wayne Hedburg

Subject: TD Mining S/027/080 Reclamation Plans

Dear Mr. Hedburg,

Delta Minerals, Inc. (DMI) is in the process of reclaiming the area as proposed in my letter to Mr. Tom Munson dated 11 January 2000. The reclamation has been moving forward, however due to near-continuous snowstorms in the area, the reclamation work has been slowed down considerably. The area is usually dry during the winter months with very few occurrences of measurable snow, but during the past five weeks there have been several storms that drop between 4-6 inches each. While it is not possible for DMI to predict the weather for the next month, we anticipate that the weather will soon return to its "normal" pattern, thus allowing us to resume our reclamation work and complete it by 15 March 2001. I hope that this will be found to be sufficient under the circumstances.

If I can be of further assistance, please contact me.

Thank you,

David Peterson
President
